Web Developer

Looking to fulfill a role using my education and skills as a web developer. I am currently learning AWS Cloud Development. I have experience using multiple front-end frameworks. For the past 2 years I have been working as a freelancer and contractor doing web development but I am looking for a full time position. I am team player that is eager to learn new technologies and isn't afraid of a challenge.

EDUCATION

University of Houston
- *Mechanical Engineering*

Udacity
- *Front End Web Developer*
- *AWS Cloud Developer*

✔ FLASK	✔ FIREBASE	✔ MONGODB	✔ GIT
✔ WEB SCRAPING	✔ RESTFUL API	✔ UI/UX	✔ ILLUSTRATOR
✔ PHOTOSHOP	✔ LIGHTROOM	✔ HEROKU	✔ AWS S3

EXPERIENCE

Front End Developer   *Colored Pixel Studios*   2019 - 2020

I worked part time on a contract basis as a front end developer for a boutique web design studio. I worked using a variety of frameworks and libraries including React, Wordpress, Next JS and Gatsby to build out the front end according to customer specifications. I also helped in the design process as necessary using Photoshop to help create mock-ups to prepare for customer presentations.

Web Developer   *Freelancer*   2018 - 2019

I worked as a freelancer creating landing pages for various businesses and making updates to current WordPress sites including layout and design modifications. I mainly used Bootstrap, Materialize, Wordpress, React, Firebase and Heroku. I also helped customers connect their domain to their hosting and deploy the site for them.

Mechanical Designer   *Expro Group*   2013 - 2020

I worked as a full time as a mechanical designer in the oil and gas industry. Primarily used Solidworks.

Mechanical Drafter   *Radoil*   2007 - 2011

I worked as a mechanical drafter in the oil and gas industry. Primarily used AutoCAD Mechanical.
